Overall Width:

0.075 inches

Thickness:

0.012 inches

Length:

Between 492.000 yards and 525.000 yards

Coating Material:

Rubber, synthetic

Environmental Protection:

Hydraulic fluid

Material And Location:

Plastic, polyamide

Product Name:

Lacing tape, flat braid

Special Features:

Max operating temp is 260 degrees c; basic material is nomex with synthetic rubber or elastomer finish; min tensile strength 26.3 lbs;

maximum elongation 44 percent; min tensile strength 35 lbs

Color:

White

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A15300
