Fabrication Method:

Braided

Length:

60.0 meters

Overall Diameter:

9.0 millimeters

Environmental Protection:

Extreme temperature resistant and weather resistant

Breaking Strength:

6300.0 newtons

Material And Location:

Plastic, polyester core and polyester outer covering

Issue Form:

Tube

Length Per Weight:

53.0 meters per kilogram

Circumference:

9.0 millimeters

Strand Quantity:

32

Product Name:

Rope, kernmantle, ty iia

Special Features:

Item conforms to unity model

Color:

Green

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A15300
