Overall Thickness:

Between 0.500 inches and 0.590 inches

Groove Radius:

0.340 inches

Accommodated Material Diameter:

0.500 inches

Outer Radius:

0.940 inches

Distance From Hole Center To Tapered End:

2.530 inches

Inner Radius:

0.875 inches

Material:

Steel or iron malleable

Material Specification:

Gs-2 fscm 75534 mfr ref 1st material response or astm a197 assn standard 2nd material response

Style Designator:

Grooved

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A105a0
