Effective Length:

2.310 inches

Opening Width:

1.990 inches

Inside Width:

1.990 inches

End Application:

Misc parts pressure hull

Accommodated Material Diameter:

0.750 inches

Leg End Thickness:

0.750 inches

Reach Length:

4.780 inches

Material Diameter:

0.750 inches

Features Provided:

W/bolt

Safe Operating Load Rating:

2500.000 pounds

Product Name:

Safety engineered hoist ring, standard

Special Features:

Black oxide treatment; has pinned flange bushing with 1/2-13 inch threaded bolt; pivots 180 degrees

Material:

Steel

Surface Treatment:

Oxide

Style Designator:

Oval and fork ends

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A105a0
