Overall Length:

8.000 inches

Overall Width:

2.000 inches

End Application:

Recovery assist, secure and traverse (rast)

Bolt Quantity:

4

Product Name:

Clamp cable assembly

Special Features:

Assembly consists of 1ea p/n 6546c220-3 plate, 1ea 6546c220-5 block, 4ea nas1352c5h24 screw cap socket head, 4ea nas35338-140 washer lock sprg, and 1ea 6546c220-7 block; items 6546c220-3 plate and 6546c220-5 block are welded together, height of assembly is 3.00 in. ; plate has four 0.406 in. Diameter mounting holes; material aisi gr 1018/1020 per astm a108 or a576, astm a36 may be used as an alternate.

Material:

Steel comp 1015

Material Specification:

Aisi 1015-1020 assn standard all material responses

Surface Treatment:

Paint

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A105a0
