Refrigeration Capacity In Btu Per Hour:

5000.0

Horsepower Rating:

5.000

Unit Type:

Panel

Control Type:

Manual

Coolant Type:

Freon-12

Condenser Type:

Open

Fan Drive Type:

Compressor unit prime mover

Storage Capacity:

150.0 cubic feet

Condenser Cooling Type:

Air

Unit Insertion Location:

Side

Panel Unit Skid Mounting Feature:

Not included

Evaporator Unit Type:

Forced air-cooling

Evaporator Fan Drive Type:

Condensing unit prime mover

Defrost System Type:

Hot gas

Compressor Drive Type:

Electric motor

Motor Current Type:

Ac

Motor Voltage In Volts:

208.0

Motor Frequency Rating:

60.0 hertz

Motor Phase:

Three

Tempurature Rating:

0.0 degrees fahrenheit

Ambient Temperature Rating In Deg Fahrenheit:

110.0

Radio Interference Suppression:

Included

Radio Interference Suppression Specification/std:

Mil-std-461, class iib

Insert Plug Sealing Surface Width:

28.500 inches

Insert Plug Sealing Surface Height:

28.500 inches

Specification Or Standard:

li type

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T235-f

Mil-std (military Standard):

Mil-std-461 spec.
