Overall Length:

32.125 inches

Overall Height:

32.563 inches

Overall Width:

20.938 inches

Current Type:

Ac

Frequency Rating:

60.0 hertz

Usage Design:

Depot level overhaul or repair of g1200 gyroscope assembly

Voltage Rating:

115.0 pounds per hour wet

Unit Type:

Chest

Current Rating:

5.0 amperes

Power Source:

Electric motor

Condenser Type:

Any acceptable

Outside Shell Material:

Porcelain

Evaporator:

Not included

Condenser Cooling Type:

Air

Condenser Unit Quantity:

1

Condenser Unit Location:

Integral

Ice Cube Making Equipment:

Not included

Capacity And Location:

5.000 cubic feet cabinet

Phase:

Single

Special Features:

Contains dust filter

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T235-a
