Overall Height:

39.000 inches

Overall Width:

27.000 inches

Current Type:

Ac

Frequency Rating:

60.0 hertz

Energy Consumption Rating:

0.0 kilowatt-hours of electricity per 100 pounds (42 kg) of ice produced, certified to ari standard 810

Voltage Rating:

115.0 volts

Ambient Temp:

90.0 degrees fahrenheit

Capacity:

100.0 pounds

Condenser Cooling Type:

Water

Integral Storage Bin:

Included

Ice Capacity Per 24 Hour Period:

240.0 pounds

Inlet Water Temperature Rating:

70.0 degrees fahrenheit

Environmental Attribute Code:

Energy efficient - energy star - commercial food service - commercial ice machines

Phase:

Single

Special Features:

28.000 in. Deep; r404a refrigerant; stainless steel

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T235-b
