Overall Length:

24.000 inches

Overall Height:

25.000 inches

Overall Width:

36.000 inches

Current Type:

Ac

Frequency Rating:

60.0 hertz

Cubic Measure:

12.5000 cubic feet

Voltage Rating:

120.0 volts

Door Quantity:

1

Outside Shell Material:

Steel, corrosion resisting

Special Features:

Undercounter design. 5.4 cu. Ft. Minus 30 degree temp. Rating. Storage capacity: a min. Of 75 filled plasma bags. Three (3) stainless steel (cres) roll-out drawers. The total exterior cube shall not exceed 12.5 cubic ft. Shall have an alarm system with and audible and visual signal for violation of temp. Requirements and loss of elect. Power. The alarm system shall have a rechargeable battery backup. Comes with a min. Of one (1) year supply of temperature recording charts

Supplementary Features:

The freezer shall be equipped with a continuously recording thermometer capable of recording temp. Requirements for seven days on one chart.

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T235-a
