Overall Height:

30.0 inches

Overall Width:

30.0 inches

Current Type:

Ac

Frequency Rating:

60.0 hertz

Voltage Rating:

115.0 pounds per hour wet

Ambient Temp:

90.0 degrees celsius

Capacity:

110.0 pounds

Outside Shell Material:

Steel, corrosion resisting

Condenser Cooling Type:

Air

Dispensing Method:

Automatic

Integral Storage Bin:

Included

Ice Capacity Per 24 Hour Period:

300.000 pounds

Inlet Water Temperature Rating:

70.0 degrees fahrenheit

Environmental Attribute Code:

Energy efficient - energy star - commercial food service - commercial ice machines

Phase:

Single

Special Features:

Ice maker's depth 30"; weight 200 lbs

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T235-b
