Ac Voltage Rating:

126.5 volts and 103.5 volts

Usage Design:

Commercial

Current Rating In Amps:

15.000

Winding Phase:

Single

Operation Method:

Compression

Unit Type:

Upright and reach-in

Outside Shell Material:

Steel, corrosion resisting

Evaporator:

Included

Evaporator Unit Type:

Forced air-cooling

Capacity And Location:

18.0 cubic feet frozen food storage

Special Features:

Use r404a, refrigerant

Color:

Gray

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T235-a
