Overall Height:

72.000 inches

Overall Width:

48.000 inches

End Application:

For slides and reagents

Voltage In Volts And Current Type:

115.0 dc

Product Name:

Freezer laboratory 23 cubic feet stainless steel with recorder

Special Features:

26 in. Deep; 23 cubic feet capacity; 3 in. Non-cfc insulation; perforated stainless steel shelves, adjustable with spill guards; recorder: 7 day, 8 in. Chart, battery backup. Temp range: -40 to +80 degrees f; alarm: digital independent high and low temp alarm with battery power failure alarm; 3/4 hp condensing unit; air cooled, r404a refrigerant. Auto defrost. 60 hz, 1 phase, 9.5 amps; 495 lbs

Material:

Stainless steel

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
