Overall Length:

31.000 inches

Overall Height:

57.500 inches

Overall Width:

30.000 inches

Energy Consumption Rating:

6.5 kilowatt-hours of electricity per 100 pounds (42 kg) of ice produced, certified to ari standard 810

Outside Shell Material:

Steel, corrosion resisting

Condenser Cooling Type:

Air

Dispensing Method:

Automatic

Integral Storage Bin:

Included

Ice Capacity Per 24 Hour Period:

506.0 pounds

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T235-b
