Refrigeration Capacity In Btu Per Hour:

1300.0

Coolant Type:

Any acceptable

Condenser Type:

Hermetically sealed

Condenser Cooling Type:

Air

Evaporator Unit Type:

Forced air-cooling

Compressor Drive Type:

Electric motor

Product Name:

Beverage service stand with refrigerated base for shipboard use; lhd-8 commissary package

Special Features:

21/3 hp compressor, 120v/8.0 amps; five door front panel with removable center access pannel; top has 7-115v/20 amp electric duplex outlets with stainless steel covers; wild cherry plastic laminate front of doors and both ends; measures 42x197

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T235-f
