Refrigeration Capacity In Btu Per Hour:
1300.0
Coolant Type:
Any acceptable
Condenser Type:
Hermetically sealed
Condenser Cooling Type:
Air
Evaporator Unit Type:
Forced air-cooling
Compressor Drive Type:
Electric motor
Product Name:
Beverage service stand with refrigerated base for shipboard use; Ihd-8 commissary package
Special Features:
21/3 hp compressor, 120v/8.0 amps; five door front panel with removable center access pannel; top has 7-115v/20 amp electric duplex
outlets with stainless steel covers; wild cherry plastic laminate front of doors and both ends; measures 42x197
Shelf Life:
N/a
Unit Of Measure:
<del></del>
Demilitarization:
No
Fiig:
T235-f
