Refrigeration Capacity In Btu Per Hour:

1300.0

Coolant Type:

Any acceptable

Condenser Type:

Hermetically sealed

Condenser Cooling Type:

Air

Evaporator Unit Type:

Forced air-cooling

Compressor Drive Type:

Electric motor

Product Name:

Beverage service stand with refrigerated base for shipboard use; lhd-8 commissary package

Special Features:

1/3 hp compressor, 120v/8.0 amps; four door cabinet, top has 6-115v/20 amp electrical duplex outlets with stainless steel covers; wild cherry plastic laminate front of doors and both ends; measures 42x138

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T235-f
