End Application:

Ice maker dispenser

Outside Shell Material:

Plastic

Product Name:

Ice level sensor

Special Features:

Item is an integral part of the 6-p.C. Board and sensor assembly which consists of warning light-reset button p/n 620487 01; master lighted switch p/n 620487 00; pc board assembly-230/5-6 (nsn 5998-15-177-7254); contractor-230/50/60(nsn 5930-15-147-0772) ; condenser sensor p/n 620404 11'plastic covers p/n 660720 00 and 660720 01

Functional Description:

Controls amount of ice deposited in ice maker dispenser

Type/model Designation:

Mdt2

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T235-b
