Mounting Type:

Window

Overall Depth:

16.500 inches

Overall Height:

13.400 inches

Overall Width:

22.800 inches

Design Current Rating In Amps:

75.0

End Application:

Automated surface observing system (asos) ct 12k

Voltage Rating:

115.0 volts

Weight:

21.000 pounds

Special Features:

600w nom. Pwr; safety thermostat open 256 degrees f, close at 2020 degrees f; power source is an electric motor; the horsepower and frequency are not rated

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A505g0
