**Overall Length:**

99.000 inches

**Overall Height:**

86.000 inches

**Overall Width:**

60.000 inches

**Power Source:**

Turbo-generator

**Cooling Capacity In Btu Per Hour:**

17300.0

**Heating Capacity In Btu Per Hour:**

27600.0

**Special Features:**

Rated output of diesel generator 15kva, 208 volt, three phase, 60 hertz includes flexible ducts, remote control box with 100 foot cable, auxiliary power cable, 110 gallon fuel tank; provides environmental control for various missile transporters (ws-133) during shipping and storage; it is portable

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

A505g0
