Mounting Type:

Wall

Design Current Rating In Amps:

15.0

Usage Design:

Heating and cooling

Voltage Rating:

115.0 volts

Power Source:

Electric motor

Electric Motor Quantity:

1

Cooling Capacity In Btu Per Hour:

12300.0

Heating Capacity In Btu Per Hour:

12800.0

Special Features:

R-410 refrigerant; auto changeover from cooling to heating; sleep timer; swing operation; wireless remote control unit; mildew-resistant filter; air cleaning mode; electronic air clean filter; automatic fan speed control; 4-way auto louver; built-in low ambient to 32 degrees f; auto restart/reset; programmable timer; plasma filter

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A505g0
