Mounting Type:

Skid

Overall Length:

47.000 inches

Overall Height:

48.000 inches

Overall Width:

39.000 inches

Condenser Cooling Type:

Air

Weight:

560.000 pounds

Product Name:

60k environmental control unit (ecu)

Cabinet Material:

Aluminum

Cooling Capacity In Btu Per Hour:

62000.0

Heating Capacity In Btu Per Hour:

37000.0

Special Features:

Has storage compartment inside with access via easy quarter turn fasteners which holds two 10 foot lengths of 16 inch insulated flexible ducts, a 50 foot power cable and remote control with cable; item heats and cools tents, shelters and vans; refrigerant is r-407c; power 208 volts, 50/60 hz; has liquid sight glass visible from outside of the enclosure; four eyes provided for lifting or tie down; hour meter provided for preventative maintenance planning; easily accessible circuit breakers for power and voltage

Surface Treatment:

Paint

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A505g0
