Overall Height:

84.9 inches

Overall Width:

42.0 inches

End Application:

Environmental control system

Special Features:

Power voltage 208volts, control circuit 24vac, maximum draw cooling 8.0kw, maximum power draw heating 9.6kw, maximum power draw reheat 11.0kw, fresh air flow rate 50cfm, cooling capacity 30,000btuh, refrigerant r410a, hot gas setting 110psig,

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A505g0
