Overall Width:

1.620 inches

Body Thickness:

Between 0.687 inches and 0.702 inches

Design Type:

Reusable

Bodylength:

4.000 inches

Filtering Media Design:

Honeycomb single filtering media response

Special Features:

With rfi shielding

Material:

Aluminum alloy 6063 frame

Material Specification:

Qq-a-274, t42 federal specification single material response frame

Style Designator:

Rectangular (incl square)

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A24000

Mil-std (military Standard):

Mil-c-7438 spec.
