Overall Height:

34.062 inches

Overall Length:

32.625 inches

Overall Width:

9.000 inches

Tube Material:

Copper

Fin Material:

Aluminum alloy

Coil Refrigerant Type For Which Designed:

Freon 12

Coil Construction/arrangement Type:

Finned surface

Special Features:

128 tubes, 4 rows, staggered, 3/8 in. Od; 108 fins per foot, mechanically bonded to tube; supply and return connections are at same end; supply connection data, tube, 1, internal, 7/8 in. Od tube; return connection data, tube, 1, internal, 5/8 in. Od tube; equipped w/casing, drilled, 7/16 in. Diameter holes; 6.111 sq ft net face area; not rated for surface area

Shape:

Horizontal rectangular

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A509w0
