Overall Height:

32.250 inches

Overall Length:

33.500 inches

Overall Width:

6.000 inches

Tube Material:

Copper

Fin Material:

Aluminum alloy

Coil Refrigerant Type For Which Designed:

Freon 12

Special Features:

256 tubes, 4 rows; staggered, 3/8 in. Od; 72 fins per foot, mechanically bonded to tubes; supply and return connections are at same end; connection data, supply connection, 3/16 in. Od unthreaded internal tube, return connection, flanged 1-1/8 in. Od tube; equipped w/casing, drilled, 5/16 in. Diameter holes; 7.111 sq ft net face area; 445 sq ft rated surface area

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:
