Gas For Which Designed:

Refrigerant r-22

Discharge Pressure:

450.000 pounds per square inch gage

Cooling System Design:

Single

Compressor Cooling Medium:

Air and fresh water

Reciprocating Compressor Design:

Compound acting

Cylinder Quantity:

8

Cylinder Arrangement Style:

Semi-radial design

Stage Quantity:

2

Suction Pressure:

330.0 pounds per square inch

Intake Connection Quantity:

1

Discharge Connection Quantity:

1

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A026a0
