Gas For Which Designed:

Refrigerant r-12

Cooling System Design:

Single

Compressor Cooling Medium:

Air

Prime Mover Cooling Medium:

Air

Mounting Type:

Base

Stage Quantity:

1

Intake Connection Quantity:

1

Discharge Connection Quantity:

1

Prime Mover Type:

Electric motor

Voltage In Volts And Current Type:

440.0 ac

Phase:

Three

Special Features:

Designed for high temperature application

Frequency In Hertz:

60.0

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A026a0
