Overall Width:

9.000 inches

Body Thickness:

0.620 inches

Bodylength:

9.000 inches

Filtering Media Design:

Honeycomb single filtering media response

Material:

Aluminum screening

Material Specification:

Qq-a-274, alloy 6063-t4 federal specification single material response frame

Surface Treatment:

Zinc frame and copper frame and nickel frame

Surface Treatment Specification:

Qq-p-416, type ii, class 3 federal specification single treatment response screening

Style Designator:

Rectangular (incl square)

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A24000

Mil-std (military Standard):

Mil-c-5541 spec.
