|-----------------------------------|------------------|
| Compressor Cooling Medium:        |                  |
| Air                               |                  |
| Prime Mover Type:                 |                  |
| Electric motor                    |                  |
| Current Type And Rating In Am     | ps:              |
| 2.8 ac                            |                  |
| Voltage In Volts And Current Ty   | /pe:             |
| 208.0 ac or 230.0 ac              |                  |
| Phase:                            |                  |
| Three                             |                  |
| Frequency In Hertz:               |                  |
| 60.0                              |                  |
| Shelf Life:                       |                  |
| N/a                               |                  |
| Unit Of Measure:                  |                  |
|                                   |                  |
| Demilitarization:                 |                  |
| No                                |                  |
| Fiig:                             |                  |
| A026a0                            |                  |
|                                   |                  |
