Overall Width:

7.500 inches

Design Type:

Reusable

Bodylength:

17.500 inches

Filtering Media Design:

Pleated 1st filtering media response

Special Features:

12 holes on frame, 0.220 in. Min dia, 0.226 in. Maximum dia

Material:

Fiber synthetic filtering medium and aluminum filtering medium

Surface Treatment:

Chromate frame

Surface Treatment Specification:

Mil-c-5541, class 3 military specification single treatment response frame

Style Designator:

Rectangular (incl square)

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A24000

Mil-std (military Standard):

Mil-c-5541 spec.
