Overall Width:

5.500 inches

Design Type:

Reusable

Bodylength:

14.500 inches

Filtering Media Design:

Slit 1st filtering media response

Special Features:

12 holes, 0.206 in. Diameter min, 0.212 in. Diameter max, located on frame

Material:

Aluminum alloy filtering medium

Material Specification:

Qq-a-200/9 federal specification single material response frame

Surface Treatment:

Chromate frame

Surface Treatment Specification:

Mil-c-5541, class 1a military specification single treatment response filtering medium

Style Designator:

Rectangular (incl square)

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A24000

Mil-std (military Standard):

Mil-c-5541 spec.
