Overall Length:

16.875 inches

Pipe Size For Which Designed:

0.875 inches0.875 inches

Shell Material:

Brass

Cartridge Quantity:

1

Unit Type:

Refillable cartridge

End Connection Type And Location:

Unthreaded internal pipe first end err-100 unthreaded internal pipe second end err-100

Desiccant Type:

Silica gel and alumina, activated

Distance From Outlet Centerline To Inlet Face:

3.500 inches

Desiccant Capacity:

109.000 cubic inches

Shell Diameter:

4.250 inches

Shape:

Angular

Style Designator:

Unthreaded internal 1st endunthreaded internal 2nd end

Fsc Application Data:

Dehydrator reg

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T247-d
