Overall Width:

4.270 inches

Body Thickness:

0.380 inches

End Application:

Aircraft, f-16

Design Type:

Reusable

Bodylength:

15.730 inches

Filtering Media Design:

Any acceptable single filtering media response

Special Features:

8 holes 0.186 in. Min. Dia./0.192 in. Max. Dia.

Material:

Aluminum screening

Material Specification:

Rr-w-365 federal specification single material response screening

Surface Treatment:

Chromate screening

Surface Treatment Specification:

Mil-c-5541, type 1, grade c, class 3 military specification single treatment response screening

Style Designator:

Rectangular (incl square)

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A24000

Mil-std (military Standard):

Mil-c-5541 spec.
