**Compressor Cooling Medium:**

Air

**Media For Which Designed:**

Refrigerant 12

**Prime Mover Horsepower Rating:**

1.5

**Prime Mover Type:**

Electric motor

**Compressing Unit Type:**

Any acceptable

**Compressing Unit Design Type:**

Closed

**Condenser Cooling Medium:**

Air

**Condenserlength:**

26.000 inches

**Electric Motor Quantity:**

1

**Phase:**

Single

**Special Features:**

Compressor motor type: capacitor run-capacitor start; compressor motor protection external inherent

**Frequency In Hertz:**

60.0

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

T240-b
