Compressor Cooling Medium:

Air

Media For Which Designed:

Refrigerant 12

Prime Mover Horsepower Rating:

1.5

Prime Mover Type:

Electric motor

Compressing Unit Type:

Any acceptable

Compressing Unit Design Type:

Closed

Condenser Cooling Medium:

Air

Condenserlength:

26.000 inches

Electric Motor Quantity:

1

Phase:

Single

Special Features:

Compressor motor type: capacitor run-capacitor start; compressor motor protection external inherent

Frequency In Hertz:

60.0

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T240-b
