Overall Width:

14.710 inches

Body Thickness:

0.300 inches

End Application:

Mcs-k0-9

Design Type:

Limited

Bodylength:

20.460 inches

Filtering Media Design:

Cellular single filtering media response

Product Name:

Ff-3 air filter

Special Features:

Uni-grid support on both sides of filter media. Filter complete with gold finish on frame and both sides grid, open cell foam tape around perimeter on downstream side and part number and rev level stamped into frame.

Material:

Plastic polyethylene filtering medium

Style Designator:

Rectangular (incl square)

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A24000
