Gas For Which Designed:

Refrigerant r-134a

Cooling System Design:

Single

Compressed Gas Cooling Medium:

Refrigerant

Compressor Cooling Medium:

Air

Prime Mover Cooling Medium:

Refrigerant

Mounting Type:

Horizontal tank

Prime Mover Type:

Electric motor

Voltage In Volts And Current Type:

115.0 ac

Phase:

Single

Special Features:

Standard unit dimensions (10.5"l x 6.4"w x 7.4"h); components: strator (maf1912), rotor (af166c), external protector (071-0570-83), start capacitor (014-0038-00), current relays (040-0411-66 and 040-0141-14)

Frequency In Hertz:

60.0

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A026a0
