Overall Width:

6.000 inches

Body Thickness:

1.100 inches

End Application:

Sb-4413/spn-35c, switchboard, power distribution

Design Type:

Reusable

Bodylength:

10.500 inches

Filtering Media Design:

Mesh single filtering media response

Special Features:

Filtration in microns is 45.0 ppi

Material:

Plastic polyurethane filtering medium

Style Designator:

Rectangular (incl square)

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A24000
