Overall Height:

18.000 inches

Overall Length:

19.500 inches

Overall Width:

4.500 inches

Refrigeration Flow Rate In Tons Per Hour:

3.000

End Application:

Air conditioner

Usage Design:

Air conditioner

Tube Material:

Copper

Cooling Type:

Air

Fin Material:

Aluminum

Product Name:

Cooling coil

Special Features:

Finned dimensions 16in. X 16in./4 rows, 16 gauge galvanized steel casing on all sides except the bottom, connection length 2 in.

Shape:

Horizontal rectangular

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T240-f
