Overall Width:

Between 7.440 inches and 7.500 inches

Body Thickness:

Between 0.498 inches and 0.500 inches

End Application:

Processor, countermeasures.Sig

Bodylength:

Between 11.340 inches and 11.400 inches

Thread Size:

0.138 inches

Special Features:

Filter unit is chamfered on both bottom corners, 1.150 in by 1.150 in

Material:

Plastic polyurethane filtering medium

Surface Treatment:

Passivate frame

Surface Treatment Specification:

Mil-c-5541e military specification single treatment response frame

Style Designator:

Rectangular (incl square)

Thread Series Designator:

Unc

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A24000

Mil-std (military Standard):

Mil-c-5541e spec.
