Overall Length:

7.000 feet

Media For Which Designed:

Refrigerant vapor

Shell Material:

Steel

End Application:

Hemp endurable power system

Tube Material:

Copper

Shell Outside Diameter:

8.000 inches

Product Name:

Direct-expansion liquid coolers

Special Features:

tube length is 7 ft; tube od is 0.75 in; baffle spacing for low flow rate; 2 refrigerant circuits 8-24; four refrigerant pass cooler; has lifting lugs & mounting saddle

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T240-a
