Body Length:

5.300 inches

Body Outside Diameter:

2.600 inches

End Application:

Hemp endurable power system

Design Type:

Nonreusable

Product Name:

Filter/drier-solder

Special Features:

Depth of socket connections is 0.600 in; connections are not threaded, but are sockets for sweating copper pipe, and material is copper-coated steel; working pressure is 500 psig

Material:

Steel body

Style Designator:

Inline disposal w/threaded connections

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A24000
