Unit Type:

Nonrefillable

Desiccant Type:

Molecular sieve and alumina, activated

Desiccant Capacity:

16.000 cubic inches

Product Name:

Ekp extra-klean liquid line filter-drier

Special Features:

40 micron filter 1st stage followed by molecular sieve and activated alumina desiccant, with a 10 micron filter at the last stage; cushioned flow' for use with poe oils

Shape:

Straight

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T247-d
