End Application:

Refrigeration plant, p/n 107898-001

Usage Design:

Refrigeration unit

Tube Material:

Copper

Product Name:

Evaporator, chill box

Special Features:

Unit cooler/evaporator composed of finned copper tube coils with (1) or more fans, defrost heaters (coil and drainpan) all enclosed in an aluminum housing; unit cooler used to transfer heat from the refrigerated space to the refrigerant; energy rating 10, 320 btu/hr

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T240-f
