Overall Width:

60.0 millimeters

Body Thickness:

9.3 major inches

End Application:

Predator aircraft

Perforation Quantity:

100.0 per square inch

Bodylength:

60.0 major inches

Filtering Media Design:

Porous single filtering media response

Product Name:

Plastic fan filter assembly

Special Features:

Consists of filter media sandwiched between fan guard and retainer

Material:

Plastic filtering medium

Style Designator:

Rectangular (incl square)

Supplementary Features:

Rohs compliant

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A24000
