Overall Height:

4.670 inches

Overall Length:

33.000 inches

Overall Width:

15.050 inches

End Application:

Special aircraft and engine tool and support equip/parts

Coil Type:

Water

Inlet Outside Diameter:

2.800 inches

Outlet Outside Diameter:

1.560 inches

Tube Material:

Copper

Fin Material:

Aluminum alloy

Coil Refrigerant Type For Which Designed:

Refrigerant

Fin Arrangement Type:

Flat plate

Coil Construction/arrangement Type:

Finned surface

Special Features:

Fin edge; rippled; fin surface; raised lance; tubing; rifled, refrigerant; r-134a, rows; 24 inch high, 4 rows deep; fins; .500 od, .006 alm.

Shape:

Plane parallel

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A509w0
