Cooling System Design:

Single

Mounting Type:

Base

End Application:

Special aircraft and engine tool and support equip/parts

Product Name:

Copmpressor

Special Features:

Volts 50/60 hz; capacity btuh 134a, nom; 49.400, locked rotor amps; 756, rated load amps; 20.7, maximum continuous amps; 29.0, watts nom; 4300, amps nom; 13.8

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A026a0
