Overall Length:

9.0 inches

Cartridgediameter:

1.0 inches

Cartridge Quantity:

2

Unit Type:

Refillable cartridge

Cartridge Length:

1.0 inches

End Connection Type And Location:

Unthreaded external tube both ends

Desiccant Capacity:

3.3 cubic inches

Compressor Power Rating:

14.0 kilowatts

Product Name:

Refrigerant dryer filter

Special Features:

Type: cooper, loose fill, connection: 1/4 od inlet connection. Connection size: 0.86 outlet connection. Material copper. Additional detail: (2) inlettubes. Trade/brand name: 621 service. Diameter: 1 in with double inlet. Inlet tube size od 5/16 & id 1/4. Outlet tube size: od .127 & id .130 cap, tube.Molecular sieve (wt.) 20g.

Shape:

Straight

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T247-d
