Overall Length:

11.0 inches

Shell Material:

Aluminum

End Application:

Refrigeration piping unit

Tube Material:

Aluminum

Tube Fin:

Not provided

Shell Outside Diameter:

0.5 inches

Product Name:

Heat exchanger

Special Features:

8.5000" between elbows; elbows have 0.500 to 0.504" id; each end of exchanger has 0.878" id; has 2hp capacity; used on 120-14 (6fpi) and 136-139(fpi) ; electric & hot gas defrost models; work pressure 450 psi; capci type 2 hp; use w/r-22, r-404a, r502, r507, r-134a; 1/2" od liquid connection; 7/8" od suction connection

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T240-a
