Compressed Gas Cooling Medium:

Refrigerant

Special Features:

-15 to 15 degrees c evaporating temperature; low start motor torque; r407c refrigerant; 24.4cc displacement; polyvinylether oil type; 68 cst viscosity; 444cc oil charge; 180-253 volts at 50hz; 187-264 volts at 60hz; 4.7 rated load amps; 3ph motor; external overload type; 31 locked rotor amps; fan for compressor cooling

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A026a0
